

SmartSocietyHub

Complete Society Management Platform

Product Documentation — NotebookLM Source Material

This document provides a comprehensive description of SmartSocietyHub — every feature, every module, every problem it solves, technical architecture, pricing, and onboarding. Prepared for use as a knowledge base in AI-assisted presentation and content generation.

30+ Modules	Web + Mobile App	UPI Payments
Works Offline	Multi-Society	Indian Fiscal Year

Executive Summary

SmartSocietyHub is a complete all-in-one digital platform built specifically for Indian residential housing societies. It replaces paper registers, Excel spreadsheets, and WhatsApp-based communication with a single unified smart platform that manages every aspect of society operations.

The platform serves multiple user roles — Chairman, Secretary, Treasurer, Members, Tenants, and Guards — each with a dedicated scoped experience. It runs on the web and as a native Android and iOS mobile app, both included under one subscription.

SmartSocietyHub is purpose-built for India: UPI payment integration, GST calculations, WhatsApp reminder templates in English and Marathi, Indian fiscal year (April–March), rupee formatting, and national emergency helplines are all built-in.

Problems Solved — Before vs After SmartSocietyHub

The following table shows the 10 most critical pain points faced by society chairmen and how SmartSocietyHub solves each one:

' Bills sent on paper or WhatsApp — residents ignore them	' Auto-generated bills sent via app + WhatsApp — no paper needed
' No idea which flat has paid — tracked in Excel sheet	' Live dashboard: paid/pending/defaulters visible in one click
' Residents pay cash to watchman — no receipt, no proof	' UPI payment inside app — auto-receipt generated and stored
' Paper visitor register — anyone can write false entry	' Digital gate log with OTP, photo and real-time resident approval
' Complaints told verbally — forgotten with no follow-up	' App complaints with SLA timer, escalation and satisfaction rating
' Parking disputes — no record of who was assigned what slot	' Full slot assignment history with timestamps and vehicle details
' Staff attendance in notebook — salary disputes every month	' Digital attendance + payroll — salary auto-added to expenses
' AGM notices on paper/WhatsApp — no formal record kept	' Push notification to all residents + PDF minutes stored forever
' No financial report ready for auditor or CA	' Trial balance, ledger and P&L generated in one click
' Sinking fund balance unknown — no one knows the figure	' Fund accounts with every debit/credit transaction tracked

Finance Module — Billing, Expenses, Accounts & Reports

1. Maintenance Billing

The core module — generates invoices for all flats and manages the complete payment lifecycle.

Trial Balance: Instant trial balance: total debits vs total credits

— C
A-
re
ad
y r
ep
or
t

%,
P & L Statement: Profit and Loss: total income minus

stotal expenses for any period
%,
Audit Trail
: Every journal voucher has a link to the actor who created and posted it

9. Financial Reports

- Monthly Collection Report:**
- %, Total flats: active occupants, vacant flats, new move-ins
 - %, Bills generated vs collected vs pending for the month
 - %, Collection rate percentage for the month
 - %, Payment method breakdown: Cash / UPI / NEFT / Cheque
 - %, List of defaulter flats with owner name and contact number
 - %, CSV export for follow-up calls and records
- Annual Report (12-Month View):**
- %, Month-by-month billing, collection, and pending amounts
 - %, Year-on-year collection rate trend comparison

- % Annual totals: total generated, total collected, total pending
- % Bar chart showing monthly collection trends visually
- % Export full year to Excel for AGM presentation

Financial Report (Profit & Loss):

- % Income breakdown: Maintenance + Marketplace fees + Other income
- % Expenses broken down by all 40+ categories
- % Net profit or loss for the period
- % Fund account balances snapshot at point in time
- % Budget vs actual variance table for the year
- % Charts: Donut (expense split), Line (income/expense trend)

Security Module — Gate, Visitors, Guard & Emergency

10. Digital Visitor Gate Management

Replaces the paper visitor register completely. Every visitor is logged, verified, and tracked.

- Step 1** — Pre-Approve: Resident pre-approves expected visitor in the app before they arrive
- Step 2** — OTP/Passcode: Visitor shows passcode or QR code at gate
- Step 3** — Log Entry: Guard records visitor name, phone, purpose, vehicle number and photo
- Step 4** — Notify Resident: Resident receives push notification and can approve or reject
- Step 5** — Exit Logged: Exit time auto-stamped

Enterprise — ₹15,999/month

Unlimited Flats

- ' Everything in Professional, plus:
- ' Double-Entry Accounting & Ledger
- ' Trial Balance & Journal Vouchers
- ' Budget Planning & Fund Accounts
- ' Asset Register & Vendor Directory
- ' Multi-Society Dashboard
- ' Document Management
- ' Custom Branding & API Access
- ' Dedicated Account Manager

All plans include: 30-day free trial · 20% off on annual billing · Onboarding support included

3-Step Onboarding Process

Step 1 — We Onboard Your Society (Day 1)

- % Share society name, address, and flat list with us
- % We create your society database within 1 working day
- % Society logo, UPI ID, and billing settings configured
- % Chairman account created and handed over securely
- % WhatsApp and push notification settings activated

Step 2 — Residents Join the App (Day 2-3)

- % Residents download SmartSocietyHub from Play Store or App Store
- % Join using the unique society code shared by chairman
- % Profile automatically linked to their flat number
- % Guard receives separate login credentials for gate app
- % Tenants receive scoped login — only see their own data

Step 3 — Go Fully Digital (Day 3 onwards)

- % Generate first month's maintenance bills with one click
- % Residents pay via UPI — receipts auto-generated and stored
- % Guard begins digital visitor log from the first day
- % Post first notice — all residents notified instantly via push
- % WhatsApp payment reminders sent to defaulters automatically

Competitive Advantages & Summary

Why SmartSocietyHub vs. Other Solutions

%Æ Built for India — Not Adapted

UPI payment links, GST compliance, WhatsApp reminders in English/Marathi/Hindi, Indian fiscal year April–March, rupee formatting, national helplines — every detail designed for Indian residential societies.

%Æ Web + Mobile for One Price

Full web dashboard AND native Android + iOS apps for all 6 user roles (Chairman, Secretary, Treasurer, Resident, Tenant, Guard) — all included in one subscription at no extra cost.

%Æ Truly Works Offline

Guards in the basement, residents in elevators — the app still works. Data queues locally and syncs the moment internet returns. Exponential backoff retry ensures zero data loss.

%Æ CA & AGM Ready in One Click

Trial balance, ledger, P&L, fund accounts, journal vouchers — all generated instantly. No CA needs to chase the secretary for Excel files before annual audit.

%Æ Zero IT Overhead

We handle hosting, backups, security patches, and updates. Society committee manages the society — we manage the technology. No server, no IT person, no maintenance cost.

%Æ Complete — Not Piecemeal

30+ modules in one platform. No separate app for billing, another for gate, another for complaints. One login, one data source, one subscription — everything connected and coherent.

Complete Module List (All 30+ Modules)

% Maintenance Billing & Invoice Engine	% Parking Zone & Slot Management
% Resident Bill Payment Portal (My Bills)	% Vehicle Registry & EV Slots
% Expense Management (40+ categories)	% Parking Sharing Marketplace
% Budget Planning & Variance Tracking	% Amenity & Facility Booking
% Sinking / Corpus / Reserve Fund Accounts	% Booking Policies & Penalties
% Tenant Rent Invoice Management	% Member / Resident Directory
% Staff Salary & Payroll Processing	% Tenant Management & Lease Tracking
% Double-Entry Accounting & Ledger	% Domestic Staff Management (per Flat)
% Trial Balance & Journal Vouchers	% Asset Register & Maintenance Schedule
% Financial Reports (Monthly/Annual/P&L)	% Vendor Directory & AMC Tracking
% Digital Visitor Gate Management	% Document Store
% Guard Gate Dedicated App	% Move-In / Move-Out Event Checklists
% Package / Parcel Tracking	% WhatsApp Reminder Engine
% Guard Patrol Rounds & Checkpoints	% Push Notification System
% Gate Incident Reporting	% Resident Marketplace (Buy/Sell)
% Emergency SOS System	% Credential Management & Bulk Login Generation
% Emergency Contact Book	% Activity Audit Log
% Complaint & SLA Management	% Session Management & Revocation
% Notice Board with Push Notifications	% Society Settings & Configuration
% Community Forum	% Role-Based Access Control (6 roles)
% Polls & Voting System	% Multi-Society Data Isolation
% Events & RSVP Tracking	% Mobile App (Android + iOS via Capacitor)
% Meeting Minutes Recording	% Offline-First Mode with Sync Queue

SmartSocietyHub — Key Statistics
